PROFESSIONAL SUMMARY

I am a versatile engineering student passionate about bringing a problem-solving mindset to wherever I find myself, with a drive to create positive change in the electrical sector. From teaching electronics and building backend systems to leading community projects, I enjoy helping people turn the problems they face into practical solutions.

Interests: Electrical Systems | Embedded Systems and Automation | Backend Development | STEM Education

EDUCATION

University of Mines and Technology (UMaT)

BSc. Electrical and Electronic Engineering

Cumulative GPA: [\[X.XX/4.00\]](#)

Tarkwa, Western Region

Expected Date of Graduation: 2027

Nandom Senior High School

Nandom, Upper West Region | 2017 – 2020

SKILLS AND COMPETENCES

- **Personal Strengths:** Critical and analytical thinking, problem solving, [leadership](#), [communication](#)
- **Software:** MATLAB and Simulink, Proteus, NI LabVIEW, ProfiCAD, Minitab
- **Programming:** Python, JavaScript, [Arduino](#); MERN-stack backend developer ([built "RentIt" marketplace](#))

INDUSTRIAL EXPERIENCE

Electrical Installation Internship – Intern

2023

- Wired power circuits, lighting, fans, air-conditioning units and water heaters on a guest-house project from wiring to finishing, then tested and inspected the work for safety and code compliance

ERA Axis – STEM/Robotics Instructor and Web Developer

2023 – 2024

- Taught circuits, sensors and Arduino programming to student learners and led a 4-member team to build an automatic irrigation system that sustains crop yields through the dry season

TEACHING EXPERIENCE

Grace Provider Academy; Fountain Gate International School – Teacher and Tutor

2020 – 2023

- Taught Integrated Science to over 200 JHS students, served as Form Master for 50+ students and launched a school-wide quiz competition at Grace Provider Academy [link](#)
- Taught core subjects to over 50 Basic 6 learners and typed, formatted and proofread all of the school's examination papers for accuracy and consistency

LEADERSHIP EXPERIENCE

Zanne Educational Program – Co-Founder and Base Manager

2020 – 2023

- Co-founded and managed an initiative in Tumu that mentored over 250 children, taught mathematics and science practicals to 60+ BECE candidates and supplied sanitary pads to 30 girls [\[Link\]](#)

Electoral Commission of Ghana – Presiding Officer, Coalition Officer, Data Entry Clerk

2024

- Registered 1,000+ community members (a 50% output increase), presided over a polling station with a 4-member team and co-led a civic-education drive in Bujan

Youth Model Parliament and School Leadership – Member of Parliament, Senior Prefect [\[Link\]](#)

2017 – 2023

VOLUNTEERING

WAAW Foundation (Women in STEM) – Project Engineer, Arduino Instructor

2023 – 2024

- Guided SHS students (over 60% female) to build a sonar system and mentored over 40 JHS students in building an automatic light-regulation system for energy conservation

Mastercard Community Development, TIME Project, NUSS-KNUST – Instructor

2021 – 2023

- Trained over 12 women in liquid soap and shower-gel production [\[Link\]](#) and taught calculator use to final-year WASSCE candidates using slide decks I designed [\[Link\]](#)

CONFERENCES/WORKSHOPS ATTENDED

UNIHUBS Project (EU-funded, Erasmus+) – Brokerage Event Participant, Business Development Lead

2024

- Engaged over 30 industry mentors on digital skills and the gig economy and led a campus ride-hailing business proposal using the Business Model Canvas; earned a completion certificate

AWARDS AND HONORS

Citation Award, Best Junior High Student, Sissala East District; Science and Mathematics Certificate

TechCrush Scholars Program, Backend Development Certificate

2023
